## **Unstable**

### **She was not supposed to survive**

The day her womb was killed was the day a rage was birthed inside her that would seek revenge for her innocence stolen. On August 9th, the Stephanie that everyone knew and loved died in spirit. She was reborn a new creature. The pedophile did not realize that his dirty deed would later cause hell to be released on all those who crossed her path. She attempted to battle her inner demons and contain the rage, but she lost and the rage won. Stephanie's violator was about to see the result of years of suppressed rage.

## **Unstable II**

### **The Battle for Her Mind**

Stephanie's innocence was stolen when she was brutalized and left for dead. Her survival sparked an untamed, mounting rage that resulted in the deaths of some who were close to her, or not so close. She was prosecuted and sentenced to Highland Mental Hospital for the criminally insane where the battle for her mind shifts into high gear. As the heartfelt Dr. Mitchell fights to pull Stephanie away from the darkness, Millie, the source of rage, holds on to her.
